work history

John McAslan + Partners, London (Feb 2019 - May 2019)

Worked with the transport team in the office on a large scale transport project. Was tasked with helping the bids coordinator with the production of documents for competitions and tenders. Also had the chance to work with the residential team assisting them with the design for tower complex in Moscow.

ADA, India (March 2018 - August 2018)

Worked on proving the concept for an mid-scale office building in a new project. Worked with the client to create concept drawings along with a senior architect. While I was there the project evolved from a conceptual stage to working drawings. While being able to help with drawings for a few residential project, I was also able to work on the development of a historical religious complex where I learnt how to liaise between the client, the office and vendors.

Morphogenesis, India 2017 (1 Month)

Provided research on Net-Zero concepts for ongoing projects. Helped develop spatial concepts for the homeless using another ongoing project. Helped with maquettes and models for various projects. Used this opportunity to get guidance with a landscape redesign project I was working on.

Kumar Moorthy and Associates, India 2016, 2017

Worked at this office to provide drawings and final presentations for projects. Was able to help with the design process for a few projects including a farmhouse and an office building.

Pitch26: Art of Architecture, Bath, 2016-2020 (part time)

Provided illustrations of prominent landmarks in the UK. Also worked to promote the sale of artwork and provided general maintenance of the premises for the best possible customer experience.

activities
